

# Even a King can't dictate what you should like or not like

If it so happened that Fatimas were originally "Made and blended for the King of Wharfedale"—would that fact prove that you were going to like Fatimas best? It would not.

A man's taste is his own. A cigarette that might delight some old potentate's palate would not necessarily please you.

That's why we leave Fatimas up to your taste.

But there is something more than good taste that is mighty important to you.

No matter how good-tasting a cigarette may be—it can only be the SENSIBLE cigarette for you if it is comfortable, too.

Its pure tobacco must be cool and comfortable to your throat at all times. And it must leave you feeling fine and fit at the end of a hard-smoking day.

Will it do all that? Then, it is the sensible cigarette for YOU.

There are thousands and thousands of men who believe that Fatima is the most sensible cigarette there is.

Try them yourself. You may discover—as these thousands of other men have—that Fatimas

have just the cool, mellow taste that you've been longing for in a cigarette.

You may find that Fatimas have the kind of mildness which allows you to smoke more of them than you might of other cigarettes.

You may find that Fatimas offer you a little more satisfaction in every puff than you ever before found in any other cigarette.

Buy your trial package of Fatimas and test them today.

# PROTECT PRETTY GIRLS FROM THE OLD SINNERS

WIRE CAGE FOR STENOGRAPHERS IS FAVORED AS SOLUTION OF EVIL.

Enoch, Sept. 12.—Mrs. Charlotte Smith demanded today that girl stenographers be kept in wire cages while working. Mrs. Smith was addressing a meeting of the Women's Homebased Association, of which she is president. She said:

"Just as soon as the stenographer enters the office the employer ogles her, draws out a box of candy and sets nearer. A young girl can't do anything but bear it. Many a girl is afraid to resent it on account of her position. These old sinners take advantage of it. It's got to stop. I would have a law passed that no man can have a female stenographer in his office without a wire cage surrounding her."

Mrs. Smith also hinted darkly: "You don't know all that I do."

Mrs. Frank W. Page said, however, that if we give their husbands a little more affection no wire cages would be needed.

**MANY COMPLAINTS HEARD.**  
This summer many persons are complaining of headaches, lame backs, rheumatism, biliousness and of being "always tired." Aches, pains and ill caused by kidneys not doing their work yield quickly to Foley Kidney Pills. They help elimination, give sound sleep and make you feel better.

The disease in a few years, does not the terrible economic waste of this disease seem, all the more needless and inexcusable?

**Increase in Wages Factor.**  
"We will never succeed, however, to the fullest possible extent in any public health work until we have improved the fundamental economic condition of the people. The increase of wages in the Panama Canal Zone had more to do with the general health conditions on the isthmus than any sanitary measure employed there. The measures employed for the control of yellow fever and malaria and certain other diseases were responsible for the improved conditions, with relation to these particular diseases, but the reason why the zone compares favorably with many portions of the United States to healthfulness, is that the living conditions of the workers have been improved by increased wages."

"The greatest single factor in our present low standard of wages as compared with the cost of living, is the fact that so much of our land, which is the only true basis for taxation, is permitted to lie idle, or is only partially productive, because the man who improves his land is penalized by taxation, while the man who permits his to lie unimproved benefits through the penalties levied on his more progressive neighbor."

**Worth Their Weight in Gold.**  
"I have used Chamberlain's Tablets and found them to be just as represented, a quick relief for headaches, dizzy spells and other symptoms denoting torpid liver and a disordered condition of the digestive organs. They are worth their weight in gold," writes Miss Clara A. Briggs, Elba, N. Y. Obtainable everywhere.

**TOPICS OF THE TOWN AND STATE.**  
**Quick Run; Small Fire.**  
The fire department was called to 704 East Warner at one o'clock today where a blaze from an electric transformer had set fire to the barn back of the H. L. Miller property. Little damage.

**Coyle Case Soon.**  
John Q. Adams, former county attorney and now associated with County Attorney Arthur Swank in the Ed J. Coyle prosecution, went to New York today to look after legal matters connected with this case.

**Money Suit Filed.**  
The Lathier State bank today filed suit against Mary and William Webb for the foreclosure of a mortgage on real estate.

**Free Fair For Children Thursday.**  
All school children in Guthrie are requested to call at Little's Drug store on Wednesday and obtain free tickets in the fair for Thursday. Guthrie is Thursday.

# Rhode Island Judge Killed for Revenge.

Judge Willis S. Knowles. Within a few hundred feet of his summer home at Lake Mooswauk at Scituate, Judge Willis S. Knowles, who for seven years presided over the Eighth District court at Providence, R. I., was shot to death.

No one saw the murderer, who made good his escape. So near was the judge to his home, which he had left to take a trolley car to his office in Providence, that his housekeeper, Mrs. Cora Wardell, heard the three shots which were fired at him and also heard a man's voice shouting:

"Now I've got you, you . . ."

She ran from the house, and a short distance away saw the judge's head above a hedge that shuts off the lawn of the house from the highway. Before she reached him he had fallen and was dead.

Cutcheon says:

"There was one or two women of the town, led by Ossie Reed who tried to make trouble, but was ordered out of the building and off the campus. She is a former graduate of the institution and has taught some. I am told, I would not have anyone believe that such an act is a sad reflection upon the former administration from the fact that ex-President Johnson me in requesting her to leave the campus. However, she may be arrested at any time by the county authorities. It was also stated that Prof. J. R. Hogan had addressed the student body to quiet them, which is untrue. The only remarks that were made were made by the president. Chester Hamilton may be expelled. Parents or guardians need not have any hesitancy in sending their boys and girls to this institution because around them the closest safeguard will be placed. This is a great institution—the gift of the state and nation, financed by both. It offers splendid opportunities to the students of my race to acquire an education that will fit them for practical duties of life, not, however, omitting the cultural and ethical sides. The literary course remains in tact, but the agricultural and industries, such as cooking, sewing, shoemaking, carpentry, blacksmithing and foundrings are the things I deem of vital importance to my people, besides the equipment are here to carry out the work. In making this institution the pride of the race, the beacon light of the coming generation, the most influential, and the most sought should be the endeavor of every true and loyal colored citizen, the opposite race, race shows its loyalty and interest by financing and fostering it and we should show ours by patronizing it. Very respectfully, J. B. McCutcheon, president."

Another deal made through the Pennock & Son Realty Co., whereby Mr. G. P. Halstead becomes the owner of the fine suburban home of A. E. Lewis, two miles West of the City. This is a hundred acre tract of fine land highly improved.

from tuberculosis, if every patient could be placed in a hospital, would undoubtedly stamp out the disease in a few years." General Gorgas continued. "There was probably as large a percentage of the population of England afflicted by leprosy in the fifteenth century, as are afflicted today by tuberculosis. County hospitals for leprosy stamped out that disease in England. Your plan of county hospitals in New York state will do the same for tuberculosis in this commonwealth, if—and when—they are established in sufficient numbers, and are sufficiently effective to segregate all cases in the infirmary stage."

"Knowing as we do that if we could care for the sputum of all cases of tuberculosis, we would control

# BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.
